### **The Cyber Threat**

The field of cybersecurity is always evolving, and nothing suggests that that is likely to change soon. That's because hackers are constantly finding new ways to infiltrate systems. A degree or bootcamp will give you the foundational knowledge you'll need to launch your career, but cybersecurity professionals need to be constantly learning once they're out of school.

### **H1 2022: Malware And Vulnerability Trends Report**

This report examines trends in malware use, distribution, and development, and high-risk vulnerabilities disclosed by major hardware and software vendors between January 1 and June 30, 2022. Data was assembled from the Recorded Future® Platform, open-source intelligence (OSINT), and public reporting on NVD data.
